

# Detail Devils® Interior Cleaner & Stain Remover Product Usage Guide

---

While many owners spend ample time cleaning the exteriors of their vehicles given the outside is what gets noticed first, we spend most of our time on the inside, and it doesn't take long to fall behind cleaning stains and odors. With this in mind, we've developed the Detail Devils Interior Cleaner & Stain Remover to make your life easier. Designed with natural enzymes, it tackles the toughest stains without breaking a sweat. From juice to coffee, chocolate, your car-sick child's vomit and most things in between, you'll be amazed at how our Interior Cleaner penetrates to dissolve and remove stains.

Because it is 100% natural, it is safe for use on all upholstery, fabrics, carpets, your dash and anything else that collects dust and stains (though it's always safest to test a small section for colorfastness).

## **Directions:**

For a wet stain, dab as much of it as possible with a paper product, but don't wipe, as this will only spread it further and deeper. When you've absorbed the surface layer, spray on the Detail Devils Interior Cleaner & Stain Remover, and let sit for 20 seconds. For tough stains, use a scrub brush to help loosen the stain, and then wipe away with a micro-fiber towel.

For dry caked in stains, spray and let sit for 60 seconds, and then dab the stain with a micro-fiber towel. Spray again and let sit for 20 seconds, then utilize a scrub brush to loosen the remainder of the stain, and dab with a micro-fiber towel.

And remember, there is no replacement for a good carpet sealant and a nice leather conditioner!
