

Detail Devils® Waterless Car Wash Product Usage Guide

How To Green Clean Your Vehicle With Detail Devils® Eco-Friendly Waterless Car Wash

In all the hustle and bustle, it's often hard to find the time to wash your car on a regular basis. Throw in seasonal water restrictions and environmental impact concerns, and it becomes even more difficult. Fortunately, Detail Devils® has created fast-acting, environmentally friendly waterless wash formulas.

The Detail Devils® Waterless Car Wash is a safe and effective solution. The special high lubricity of our products encapsulates dirt and grime, so that it is easily wiped away without scratching your delicate paint's surface. Simply spray, wipe, and walk away. It's that easy—no hoses, no mess and this process not only cleans, it actually protects, enhances paint clarity, slickness and gloss, with an organic carnauba wax.

Detail Devils® Waterless Car Wash QUICKLY and SAFELY cleans painted surfaces, chrome, plastic, glass and wheels without the use of water. No hoses! No rinsing! No drying!

Detail Devils® Waterless Car Wash also offers the value of a concentrate with the same great performance as the pre-mixed ready to use wash.

Detail Devils® Waterless Car Wash, Instructions:

Always try to work in a shaded area on a surface that is cool to the touch. Make sure the surface is not gritty with dirt or sand, to avoid scratching.

Use a clean micro-fiber towel to wipe the surface dry. Wipe in one direction to avoid re-contaminating the area you've already cleaned. Turn your towel as needed when the side you're using becomes dirty. The haze that's left behind is our carnauba wax. It should be buffed with a clean micro-fiber towel for a brilliant shine that also protects your vehicle's finish!

Perform these steps over the entire vehicle.

Detail Devils® Waterless Car Wash—"No Rinse" Car Wash Instructions:

Detail Devils® Waterless Car Wash is easy to mix—simply remove the squeeze trigger and pour two ounces into a gallon of water. Fold a Detail Devils® Micro-Fiber Buffing Towel into quarters and allow it to soak for a few minutes in the bucket of wash solution. Very gently squeeze excess from the Detail Devils® Micro-Fiber Buffing Towel.

Starting on the upper surfaces first, gently wipe in one direction so as not to rub the dirt back into your vehicle. As the Detail Devils® Micro-Fiber Buffing Towel becomes dirty, fold to a clean side and replace with a fresh towel as needed. Wipe in a straight motion over a small section (2 foot X 2 foot) at a time. Using a second clean Buffing Towel, wipe each individually treated area until dry.
